Professional profile

Software Development student with one year of IT support experience at CENFOTEC University. Skilled in full-stack development using .NET MVC, Spring Boot, and Angular. Developed an AI-powered content generator integrating Google Gemini API for automated summary and presentation creation.

Experience

IT Support Assistant | CENFOTEC University | San José, Costa Rica

January 2023 - February 2024

- Configured and deployed computer equipment for staff and students
- Performed maintenance and troubleshooting on institutional hardware and software
- Assisted the IT department with technical support tasks

Full Stack Developer | Gym Management System Project

April 2024 - May 2024

- Developed a dynamic gym website using .NET MVC design pattern
- Implemented front-end features with JavaScript, HTML, and CSS
- Built back-end functionality using C# and SQL database
- Conducted debugging and testing to ensure application reliability

Backend Developer | AI-Powered Content Generator Project

May 2025 - August 2025

- Engineered a Spring Boot application integrated with Google Gemini AI API
- Developed Angular front-end for seamless user experience
- Created automated system that processes PDFs, videos, and images to generate summaries, presentations, and infographics
- Implemented prompt engineering and AI response handling
